

Team Charter ver. 8/10/23

An important part of working as a member of a team is to understand your team members. It's important to know what you can expect from your teammates and what they expect from you. Many different functions will need to be performed by each team member. A **team charter** is a document in which you carefully lay out these expectations. In many ways, it is like a contract between you and your teammates in which you formally define the terms of your partnership.

The **team charter** should also define the criteria by which you and your teammates will determine how decisions are made and whether your team (as a group) and each member (as an individual) has fulfilled the goals set forth in the charter.

For this assignment you will generate a team charter document.

Assignment: Submit a team charter that, at a minimum, addresses the following items:

1. lists the members of your team, their email addresses, their phone numbers, and their class and work schedules;
2. puts forward the major goals for the team;
3. identifies the major deliverables for the project;
4. define criteria for assessing team success;
5. define criteria for assessing individual success (list per team member);
6. clearly states how project costs will be shared among the team members (e.g., "project costs will be shared equally among all team members");
7. expectations regarding communication media (e.g., electronic, face-to-face meetings, and shared electronic storage for project files and resources);
8. expectations on response time to the various communication media (e.g., 2 hour for texts received between 9:00am and 7:00pm, 1 day for email and Teams messages, 1 week for USPS);
9. define a process for decision making and resolving any potential conflicts;

The team may include additional items they identify as being important to their partnership.

The charter must include a signature or other form of verification that indicates each team member agrees to the charter.

Email: dutyj@msoe.edu

Phone Number: 262-239-3636

Schedule: M: 10am-12pm, 2pm-4pm T: 12pm-4pm W: 10am-12pm, 2pm-3pm R: 12pm-1pm (Senior Design), 3pm-4pm F: 10am-12pm, 2pm-3pm

Megan Ruffing

Email: ruffingm@msoe.edu

Phone Number: 414-369-7484

Class Schedule: MW: 10-12pm, 2-3pm & 7-9pm T: 11-12pm & 1-3pm R: 12-3pm F: 10-11pm & 2-3pm

Work Schedule: M: 12-2pm T: 9-11pm R: 9-12pm F: 11-2pm

Sports Schedule: MWRF: 4-7pm T: 4-8pm Sat: 9-12pm or meet

Lily Schellenbach

Email: schellenbachl@msoe.edu

Phone Number: 847-452-5907

Class Schedule: MWF: 9-10am, 12-1pm, 2-4pm T: 12-1pm, 3-5pm R: 9-10am, 12-1pm,

Work Schedule: T: 7-11am, R: Sometimes 1:30-5:30pm F: Sometimes 7-11am

Atifa Tariq

Email: tariqa@msoe.edu

Phone Number:414-232-3091

Schedule: M: 10-11AM, 1-2PM, 3-4PM T: 1-5PM WF: 10-11AM, 12-4PM T: 12-1PM

Team Charter ver. 8/10/23

Major Team Goals:

Design and develop a room management system that automatically sets room temperature based on the room conditions, detects the amount of people in a room, and helps save power while maintaining a comfortable room environment.

Major Project Deliverables:

- Automatic temperature monitoring and control in multiple rooms
- Lighting control based on room occupancy and window status
- Detect number of humans in room
- Predict room occupancy/conditions before people arrive using historical usage patterns
- Send alerts when unusual energy usage or unsafe room conditions are detected

Criteria for assessing team success:

All team members contribute equal efforts and collaborate effectively. Ultimate team success would be having a working prototype of our project by the end of the school year. Because technical complications might arise, success will also be measured by effective communication and thorough documentation of the team's design process.

Criteria for assessing individual success:

Miles: I would like to ensure that the whole team can work together effectively. This comes secondary to completing my own share of work of course, but communication is key in cooperative projects, so I would like to consistently communicate daily over teams. For personal work metrics, if I am working ahead of the deadlines, I will consider that a success.

Jack: Meeting deadlines and not procrastinating work till the last minute, keeping my teammates updated if I won't be able to complete something or if I need help, keep my work organized and update my logbook with the things I am working on, and to set small goals as I go to help with gradual accomplishment.

Megan: Complete my work on time, assisting my team members whenever they need help, apply my technical skills to help the others in my group learn and to achieve goals for our project and communicating effectively with my team members.

Lily: Complete my portion of work on time, help others if they are struggling with their workloads, communicate progress and challenges, and apply my technical skills to help achieve the project goals.

Atifa: Meet deadlines, work effectively with the team, help teammates, produce reliable and organized work, and contribute equally to the project.

Project Cost Distribution:

Project costs will be shared equally among all 5 team members. Individuals should ask the group before making purchases; purchases should be agreed upon by the team first.

Purchases can be tracked in this shared spreadsheet: [Senior Design Purchase Log.xlsx](#)

Team Charter ver. 8/10/23

Communication Expectations:

All team members are expected to attend the weekly senior design meeting or make-up meeting if they cannot attend the regular meeting. All electronic communications will be conducted through Microsoft Teams, and all assignments/docs will be shared using Microsoft Office applications (Word, Excel, PowerPoint).

Respond to all communications the same day if possible, or the next day if communications are received after 5pm. Be aware of the possibility of heightened communications near due dates; try to be more responsive to the team around due dates.

Decision Making and Conflict Resolution Process:

For making decisions, we will make a pros and cons list or a decision matrix and discuss as a team what the best route for success will be. If the team is split, we can vote, and the majority vote(3 votes) will be the route we take.

For resolving conflict, we will try our best to resolve through group discussion first. If we are still struggling to come to an agreement, we will go to our advisor to step in. The involved parties should write down their grievances and share them with the advisor so that good communication can happen.

Team Charter ver. 8/10/23

Team Signatures:

I have read and agree with the expectations outlined in the team charter:

Megan Ruffing 09/13/26

Lily Schellenbach 09/13/26

Atifa Tariq 09/13/26

Miles Bailey-Waltz 09/13/26

Jack Duty 09/13/26
